

## Wildand Fire in Ecosystems: Effects of Fire on Cultural Resources and Archaeology

By U. S. Department Of Agriculture

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 232 pages. Dimensions: 11.0in. x 8.5in. x 0.5in. Cultural resources refer to the physical evidence of human occupations that cultural resource specialists and archaeologists use to reconstruct the past. This includes the objects, location, and landscapes that play a significant role in the history or cultural traditions of a group of people. Cultural resources include artifacts of historical significance left by prehistoric aboriginal peoples. Archaeological constituents, the basic units of archaeological analysis, consist of artifacts and features. Artifacts include carved objects, pottery, and ceramics, flaked and ground stones, faunal and floral remains, glass, and metal. Features include earthen works, rock art, midden soils, and structured. Cultural resources are at risk of being damaged by wildfires as well as active natural resource management. In Canada and the United States, managers have legal requirements to protect cultural resources during fuels treatments, restoration activities, wildfire suppression, and post-fire rehabilitation. The successful implementation of prescribed burning and wildfire suppression in cultural resources sensitive areas requires integration of cultural resources and wildland fire science. Knowledge of the local archeology, artifact materials, site types, and context is essential to minimizing the negative impacts of all...
