Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Scientific Measurement of Classroom Products The aim of this book is stated in detail in the introduction. In short, it is an attempt to present, free from its usual accompaniment of statistical methods, the new idea of educational measurement by means of objective scales. This book will not satisfy the statistically trained reader, for to such its methods will appear clumsy and inelegant. However, not every member of the teaching profession can be expected to have statistical training; yet it is essential that every one in school work have the quantitative point of view. If this small book succeeds in introducing the reader to the new movement of which the objective scales are the product, it will in a large measure make up for its obvious shortcomings. It is our pleasure to record our obligations to the following for their courtesy in permitting us to quote their original papers and reproduce their scales: Dr. L. P. Ayres (Handwriting and Spelling Scales). Dr. F. W. Ballou (English Composition Scale). Dr. B. R. Buckingham (Spelling Scales). Mr. S. A. Courtis (Arithmetic, Writing, and Reading Scales). Mr. W. S. Gray (Reading Scale). Dr. M. B. Hillegas (English Composition Scale). Dr. Daniel Starch (Reading and Spelling Scales). Dr. E. L. Thorndike (Handwriting, Reading, and Drawing Scales). Dr. M. R. Trabue (Language Scale). Dr. C. Woody (Arithmetic Scale). About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
